

Bike to Work Day 2010

The weather was perfect as nearly 350 cyclists arrived in Crystal City's scenic Water Park for the Washington Area Bike Association's annual Bike to Work Day. As an event gold sponsor, the Crystal City BID hosted a pit stop for commuting cyclists. Here, riders were able to enjoy a light healthy breakfast, learn about commuter shower membership options at Sport & Health Club, and get their bike safety checks and repairs by Revolution Cycles.

As part of a series of programs that the Crystal City BID has devoted to Bike Culture, Bike to Work Day showcased Crystal City's great accessibility assets. Just off the Mount Vernon trail, and centrally located in the region, Crystal City is ideal for everyday bicycle commuters. The recently launched Revolution Cycles City Hub and the coming addition of a regional bike sharing program all help make Crystal City the perfect place to get outside, get active, and get green all while getting to work.
